no problemo.. darouze called me last night about the tow truck stuff- I calmed the waters and he said for us to text him if we want him to ask any questions when the inquiry comes up but I told him its just an update at this time the actual inquiry will be discussed further later..

"Therkelsen, Jennifer" <Jennifer.Therkelsen@ottawa.ca> 2/16/2022 2:23 PM

so no need for questions at this time

"Therkelsen, Jennifer" <Jennifer.Therkelsen@ottawa.ca> 2/16/2022 2:29 PM

the BIA meeting last night went pretty well I explained what our role is in terms of the NCRCC and the EOC why requests need to filter through there (after police explained it) in terms of motions Fleury only talked about the two the Luloff- military and another one about the parliament area again. He said other stuff is being discussed but those are the only two he was aware of that are finalized at this time. He asked them again about any motions and everyone said nothing only pushed stuff to Lucille about funding for the business'.

To all animal parents at the Ottawa demonstration, we are urging you to make the necessary alternate care arrangements if you become unable to care for your animals following potential police action. If not, your animals will be placed into protective care, at your cost.
